

Emergency Tasker Token

Emergency Tasker Token

Introduction

Emergency Tasker Token (ETT) is a project with a systemic approach aimed at facilitating payment processes originating from the provision of personal, residential and mobility services at a global level, as well as investment in order to guarantee a retirement in decent conditions for those who are dedicated to offering these services.

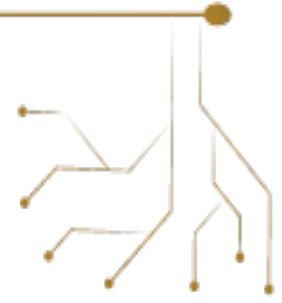

Emergency Tasker Token is built on the blockchain in Cryptocurrencies of Binance Smart Chain, being owned by those who cooperate with this community.

The progress of each member of the Emergency Tasker Token community is based on the development of their individual capacities based on the performance obtained by carrying out tasks that are required in their daily lives, based on the provision of timely, effective and efficient services.

Emergency Tasker Token

In this sense, each member of this community has the capacity and authority to make decisions about the destination of our token.

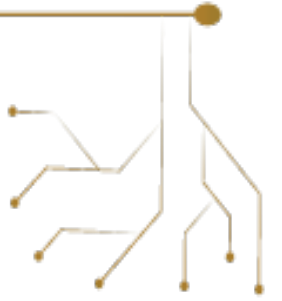

In this way, the integration of the dynamic principle, in economic terms, allows Emergency Tasker Token to adapt to the innumerable variables of the financial system, ensuring participation in a common objective, decision-making capacity regarding the pursuit of the objective, and fiduciary duties with its members. .

Those who make up the Emergency Tasker Token community have agreed to create a reserve fund that will be made up of 2% of the Fees generated in their operations, this fund will provide support through donations in the face of different emergencies generated by catastrophes or natural events (floods , hurricanes, earthquakes), as well as multiple humanitarian events.

Emergency Tasker Token

Emergency Tasker Token and each one of those who make it up sustain their performance on the ethical and professional principle to offer services with excellence, allowing us to highlight as our main values: Transparency, honesty, responsibility, commitment and dedication that guarantee the provision of services efficiently.

In this way, the Emergency Tasker Token community is oriented and trained for the infinite evolution of the ecosystem that makes it up.

ETT

Emergency Tasker Token

100% Community Project

The growth of the members of the Emergency Tasker Token community is based on the capacities of each of its members to develop tasks required for the daily life of any human being, based on the provision of timely, effective and efficient services.

- ✓ The Emergency Tasker Token community will become a global reference for its commitment to emergencies.
- ✓ Emergency Tasker Token will transcend the multinational limits to be used by the future inhabitants of the planet Mars in the contracting of required services.

Emergency Tasker Token

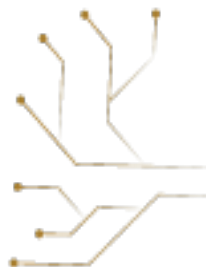

Why Buy?

Emergency Tasker Token is an advance in the global magnitude of the current market, since it aims to change the way we pay / charge various services, reaching each home directly and facilitating interaction between those who require attention to specific needs of the type personal, domestic or mobility, with whom or who are able to contribute their valuable experience to solve this need.

The driving force and main interest of Emergency Tasker Token is to provide support to each of the people who daily dedicate themselves to offering various services, to facilitate the receipt of the fees obtained from their work, as an investment that will allow them to consolidate a safe heritage by the time they decide to stop working and retire.

ETT

Emergency Tasker Token

Why are we better than other projects?

Emergency Tasker Token is a comprehensive project that is not only interested in promoting the personal gains of each member that makes up its community, but goes further by allocating part of its benefits to supporting vulnerable communities victims of different climatic events, valuing the needs of your community beyond personal financial gain.

Emergency Tasker Token also deals with the financial stability of people in ages outside the range commonly labeled as "economically active population", establishing certain levels of security for those who require a well-deserved rest after having been an active part of the labor market.

For Emergency Tasker Token, planet earth is not the limit since since its inception it is projected as a crypto active available for monetary exchange between people who decide to be part of current and future projects in the colonization of outer space.

Emergency Tasker Token

ETT commitment to the world and your emergencies

We will hardly be prepared for the wave of natural disasters that can hit the city in which we live or the world unexpectedly, something inevitable that thousands of people must face every day.

Emergency Tasker Token, in terms of citizen responsibility, will make a Donation of 2% per year of the fees generated within its operations, as a subsidy and contribution to risk situations derived from natural or humanitarian catastrophes, as well as aid to vulnerable groups affected by these scenarios.

Faced with the latent need to lessen the impact generated by a natural disaster, Emergency Tasker Token channels its private action through a direct annual donation, intended for the assertive management of digital financial resources available for the care of emergencies and citizens.

Emergency Tasker Token

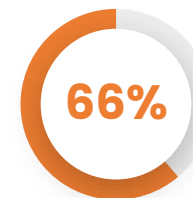

Who is the emergency contribution aimed at?

Non-profit foundations, civil associations, citizen or neighborhood associations, care units, social services, non-governmental organizations and individuals.

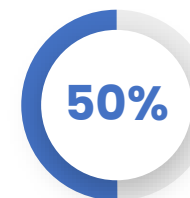

All donations count.

There is no perfect minimum or ideal maximum, but your collaboration will help bring smiles and hope to many people.

At your side we will change the world!

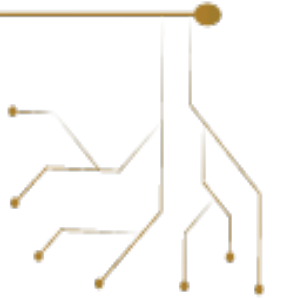

DISASTERS ON THE INCREASE

HOMELESS

Emergency Tasker Token

Lets create a community united for the common good

The main values of those who make up this community are honesty, responsibility and dedication, all oriented to the provision of various services.

The Emergency Tasker Token community will work hand in hand to achieve the personal and professional growth of its members to promote their continuous training in financial matters.

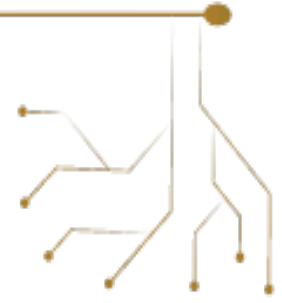

The effort of all the members in the consolidation of strategic alliances will guarantee the advancement of the token, its community and the continuous improvement of the services offered by all its members.

ETT

Emergency Tasker Token

Beyond ETT

Emergency Tasker Inc. is a company with solid strength in the market, which aims to provide services in different areas such as personal (cleaning, hairdressing ...), domestic (electrician, plumbing ...) and mobility (travel, removals. ...) currently operating within the United States.

Emergency Tasker Inc. will become the main financier of the Emergency Tasker Token liquidity through the monthly contribution of an amount equivalent to 10% of the profits generated as a result of its usual provision of services of various kinds.

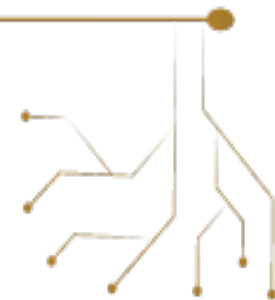

Among its short-term growth plans is the market launch of a mobile application for Android and IOS devices, which is intended to serve as a bridge to link those who provide various services with their potential customers.

It is also planned that within this mobile platform the payment gateway allows the cancellation of the services contracted through Emergency Tasker Token.

Emergency Tasker Token

Project Commissions

Emergency Tasker Token

Road Map

PHASE

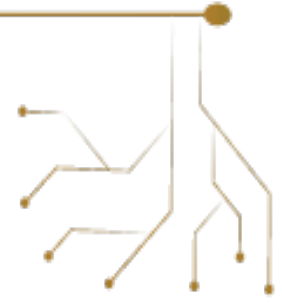

- Creation of tokenomics.
- Creation of the Contract.
- Whitepaper.
- Launch of social networks.
- Website launch.
- Start of marketing.
- Community Building.
- Pre-sale / public sale.
- Launch of the Token by Pancakeswap.
- NFT Launch
- 500 holders.

Emergency Tasker Token

PHASE

2

- Marketing campaigns
- First smart contract audits
- Coingecko and CoinMarketCap applications
- 500 Telegram users
- First exchange listing
- First association
- 1,000 holders

Emergency Tasker Token

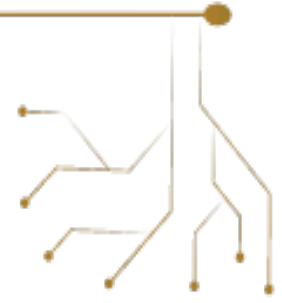

PHASE

3

- Influencer marketing in social networks.
- Second exchange listing.
- CertiK Audit
- Second association.
- Integration as a payment method in service application: Emergency Tasker.
- 1,000 users on Telegram
- 2,000 holders

Emergency Tasker Token

PHASE

4

- 4,000 holders
- Third exchange listing
- Associations with NGOs
- Marketing on a larger scale and expansion of the marketing team.
- 2,000 users on Telegram.

Emergency Tasker Token

PHASE

5

- Global Marketing Approach
- 10,000 holders.
- 5,000 users on Telegram
- Listed on most popular exchanges, Binance and Coinbase.
- Start of donations to world emergencies.
